

For more than 40 years, our fruit winery in Gols, Burgenland, has specialized in the production of fruit wine and winter hot drinks. For the production of our mulled wine, we are the only producer which use the traditional "leaching process". Cinnamon sticks, cloves and sugar are added to the wine. After the spices are completely leached, the ready-to-drink mulled wine is filtered and bottled. Only through this laborious process can we guarantee the high quality of our products.
